

CO₂ Neutral label certificate

COMPANY LABEL - BRONZE LEVEL

Client reference: N° 24/429

Certification start date: 20/12/2024

Certification end date: 20/12/2025

CO₂logic certifies that **Willy Naessens** has calculated its **Belgian Company** carbon footprint, set up a concrete reduction plan and offset remaining emissions (**16754 tCO₂**) by supporting certified climate projects.

The operational scope of work covers Scope 1 and Scope 2 emissions for **FY 2023**.

Willy Naessens ambition is to reduce its **company** emissions as follows:

- to reduce scopes 1 and 2 emissions by **25 % CO₂/indexed turnover** in **2030** in comparison with **2020**.
- to yearly offset remaining emissions through certified carbon credits.

Every CO₂ Neutral label is reviewed and validated by Vinçotte, an independent international certifying authority. Through an in-depth audit, Vinçotte controls the implementation of the CO₂logic approach: calculate, reduce and offset CO₂ emissions.

All information related to the CO₂logic approach and the certification process can be consulted on our dedicated website www.co2-neutral-label.org and all the information related to this climate journey is made available through the individual QR code present on the label:

Certificate prepared and issued by
CO₂logic NV/SA, a South Pole company
