Chapter 4

33% 4 / 19

Lesion assessment of the bigger polyp
Non-granular polyp over a fold.
Discussion over Kudo pattern, which is most likely a type VI. Demarcated area in the middle.

GIEQs IV is linked to GIEQs Online : "A pioneering web interface for endoscopy education"

Unique features of GIEQs

- The Symposium is part of our Online Endoscopy Library GIEQs Online
- All sessions and training materials are backed up by a 1-click link to published evidence.
- All learning materials are categorised (tagged) for ease of navigation, search and learning.
- After the symposium GIEQs Online provides 24-7 year-round learning and decision-support.

"A Practical, Easy to Implement Bridge Between the Latest Evidence and Real-Life Endoscopy"
(GIEQs Online Pro Member)

Click to Register now for GIEQs IV

GIEQs is the only fully CME accredited digital endoscopy symposium focussed on the endoscopic procedures we all perform everyday

- for consultants, trainees and endoscopy nurses

Practical advice to implement the latest evidence in the following areas into your endoscopy practice:

- Lesion detection, Assessment and Management in Gastroscopy and Colonoscopy

- Training in Endoscopic Procedures

- Detection of Serrated Adenomas

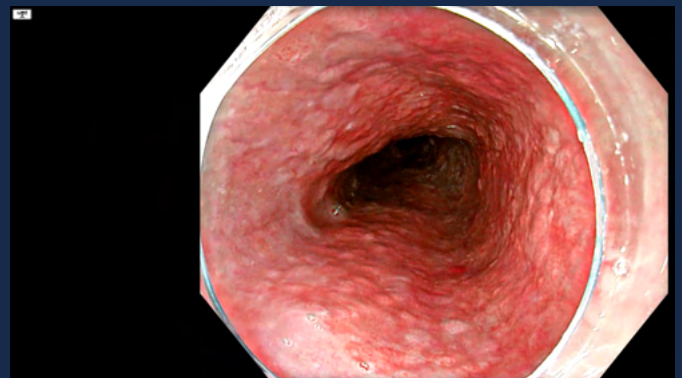

- Inflammatory Bowel Disease in Endoscopy

- Basic ERCP

- Basic EUS

- System approaches to improve the quality and safety of endoscopy

We take published evidence from complex endoscopic interventions and apply it to everyday endoscopy.

"Discover what you never knew you didn't know about everyday endoscopy"

Scientific Programme

Plenary

The Core Messages of Everyday Endoscopy

Complex

More Complex Techniques, relevant to
Everyday Endoscopy

	Thursday 5th	Friday 6th
7-8am		Pre Symposium Session
8-9am	Post Endoscopy Upper Gastrointestinal Cancer (PEUGIC)	Post Colonoscopy Colorectal Cancer (PCCRC)
9-10am	The Gastro-Oesophageal Junction	Preventing Incomplete Colonoscopy
10-12pm	How we perform inspection of the Oesophagus & Stomach	Preventing Inadequate Characterisation of Colorectal Polyps
1-2pm	How we perform inspection of the Duodenum	Preventing Inadequate Polyp Detection: Man or Machine?
2-3pm	Bring your Real-Life Endoscopy problems: Part I	Preventing Incomplete Polypectomy
3-4pm	Bring your Real-Life Endoscopy problems: Part II	Serrated Detection Rate; a better alternative for ADR?
4-5pm	Biopsies in the UGI Tract	LGI potpourri
5:50pm	AI Satellite Symposium	

	Thursday 5th	Friday 6th
7-8am		The GIEQs Foundation
8-9am	Advanced EUS Imaging of focal pancreatic lesions	Difficulty in Colonoscopy and how to handle it
9-10am	Pancreaticobiliary Stone Management	In-depth: ESGE Polypectomy Curriculum 2023
10-12pm	Paradigm changes in the management of biliopancreatic diseases	Difficulty in Polypectomy and how to handle / Adverse Events in Polypectomy
1-2pm	IBD in Endoscopy 1: Back to the basics	Safety in Colonoscopy and Polypectomy
2-3pm	IBD in Endoscopy 2: AI, polyps and patient experience	Training in Polypectomy
3-4pm	EUS-assisted pancreaticobiliary drainage	Rectum: a specific organ requiring a specific approach
4-5pm	Lumen-apposing metal stents	Bariatric Endoscopy
5:50pm	Pandora's anal box

Organise your own group meeting with Group Virtual Learning

-Why not organise your own GIEQs IV mini-symposium and receive up to 50% discount on the cost of individual registration.

There are advantages to endoscopy professionals learning as a group. Group learning helps:

- align the unit culture & improve team working
- individuals understand and appreciate each other's roles
- provide a platform for challenging entrenched views
- foster a collective approach to quality improvement.

-Ideas for specific Group experiences:

- Bring your endoscopy unit together in the hospital to watch the stream
- Bring your local gastroenterology community together in a local venue
- Engage industry for financial support

GIEQs Online

Click to Discover GIEQs Online - FREE

Your 24-7 year-round companion for Everyday Endoscopy

What is GIEQs Online?

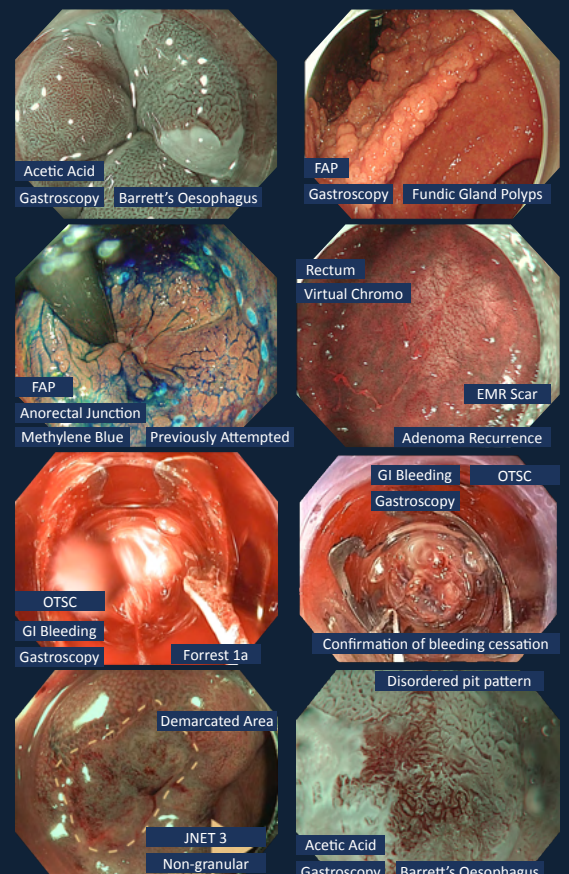

GIEQs Online is our state-of-the-art Education Platform covering all aspects of Everyday Endoscopy.

Want to know about the latest evidence in Everyday Endoscopy? Practical steps to perform everything from cold snare polypectomy to emergency treatment of upper GI bleeding to complex endoscopic mucosal resection? Deconstructed step by step approach to both theory and practice? On call and want to quickly refresh your knowledge of a particular technique?

Look no further than a GIEQs Online PRO registration. PRO gives you access to all our content including premium courses, livestream courses, content packs and more.

GIEQs IV including GIEQs Online PRO. The Perfect Combination.

This year we have included the option to purchase a heavily discounted PRO Subscription to GIEQs Online as part of your registration package. This ensures that you can continue the GIEQs experience all year long.

Focus on high-definition content linked by deconstructed ideas (tags)

Imagine you're on call...You're awoken at night by news of a gastric variceal bleed. Its been a long time.. You need the latest evidence on application of Histoacryl Glue for bleeding Gastric Varices. You open GIEQs Online. You search for the Tag for Gastric Varices. You discover the GIEQs I session with a practical demonstration of the technique and an associated lecture on theory. You also discover a nursing video to aid the preparation of the other half of the team.

Happy Endoscopist. Happy Team. Safe and Effective Patient Management.
GIEQs Online. Endoscopy Education. At Your Pace.

More

The GIEQs Difference

High definition, tagged ideas, Available 24-7 on your terms

GIEQS Online and Symposium Viewer Features

The majority of online resources are full clinical cases. We don't edit cases during difficult moments. So you get uncut access to Everyday Endoscopic problems.

All tags visible in this chapter. Click to search the whole library for this tag

Toggle all tags in the video to quickly skip between ideas
